

Fulfill Your Wind Energy Calibration Needs from a Single, Reliable Source!

Companies with the most stringent quality standards trust Transcat to meet their calibration needs.

- Accredited calibrations for a broad array of disciplines, including torque and instruments including multimeters, insulation testers, and clamp meters
- Calibration to the manufacturer's specs and all essential test points
- Minor adjustments, instrument cleaning and common alkaline battery replacement included

Reduce Risk!

Rely on Transcat to reduce your compliance, quality, productivity, and safety risks.

- 40+ Years of Industry Experience
- Superior quality systems

Calibrate at Your Convenience!

Transcat provides calibration services designed to best serve you in the Wind Energy Industry.

- Flexibility of pick-up and delivery, service at your site, or shipping to and from our labs
- 17 labs located throughout the US, Canada and Puerto Rico
- Accessibility whether you're a single wind farm or a company with multiple sites

Calibration for Wind Turbine Tool Kits and Equipment You Use Every Day!

Transcat has the unique advantage of being able to calibrate the instruments we sell, including full Wind Turbine Tool Kits. We offer different levels of calibration to meet quality standards for instruments used by wind energy professionals on a daily basis.

- Calibrated to your quality standards
- Documentation to verify all points of calibration
- Stahlwille, Wright Tool, Megger, Fluke, Plarad and more!

Count on Us to Deliver Calibrations You Can Trust!

Transcat provides choices designed to make it easy for you to get calibration services that best support your business, no matter where in the wind life cycle it lands.

- ISO 9001:2000 compliant Quality Systems
- Widest scope of ISO/IEC 17025 accreditation in the Wind Energy Industry
- ASQ-certified lab technicians

Trust Transcat to Calibrate Your Standards, Too!

Few commercial calibration operations catering to the Wind Energy Industry are willing – or able – to develop the quality systems that allow us to offer ISO/IEC 17025 accredited reference level calibrations.

- Convenient, reliable and efficient service
- Faster turnaround than the OEMs

When you're ready to entrust your instruments to an industry leader in quality accredited calibration, contact Transcat!
