

2370 LED Flashlight

INTRODUCING THE 2370 LED FLASHLIGHT
NIGHT VISION RED, BLUE AND BRIGHT WHITE LIGHT

Our most sophisticated aerospace grade aluminum flashlight, the new 2370 LED flashlight has been designed as 3 lights in one.

A rotating magnetic dial switches between bright white light and night vision red or blue light, so the 2370 LED is the only light you will need, whether piloting an aircraft, or navigating a park trail at night. The anodized aluminum body is strong and light weight while the strengthened steel clip fastens securely to your pocket.

The new 2370 LED: It keeps you dialed in to the action.

Body Material: Aluminum with Type II Anodized
Minimum Pack 0 ea.
