Calibration Services

Transcat is North America’s leading provider of precise & reliable calibration services. Each of our calibration laboratories is ISO 9001:2000 registered with UL, Inc. Our Houston lab has received ISO 17025 Accreditation by NVLAP. Our capabilities cover a broad scope of disciplines most commonly seen in the Process, Pharmaceutical, Medical Device, Utility, and Energy markets.

Web-Based Asset Management

- CalTrak® On-Line offers instant, 24/7 access to data sheets, certificates of calibration and asset listings
- View and print any calibration certificate and calibration data
- View all items that are due for calibration
- Track all equipment that is currently in the lab
- Validated to 21 CFR 820.75 (process validation)

Repair Services

Transcat offers a broad range of repair services to save you the time of sending your test & measurement equipment to multiple OEM’s.

Our Houston repair center offers you a convenient single source for all of your test & measurement equipment repairs.

- Multimeters
- Megohmmeters
- Process Calibrators
- Loop Calibrators
- Thermocouple Calibrators
- Pressure Calibrators
- Dry Block Calibrators
- Dead Weight Testers
- Decade Resistance Boxes
- Hi-pots
- Power Supplies
- Clamp-on Ammeters

11 Full-Service Calibration Labs across North America and Puerto Rico

## Calibration Service Capabilities

### Electrical
- Ammeters
- Clamp On Meters
- Digital Multimeters
- Megohmmeters
- Power Meters & Sensors
- Voltmeters
- Wattmeter
- HiPots

### Electronic
- Impedance Bridge & Standard
- Decade Boxes
- Impedance Meters
- Counters
- Signal Generators
- Oscilloscopes
- Power Supplies

### Calibrators
- Current
- Multifunction Process
- Pressure
- Process Loop
- RTD’s
- Simulators/calibrators
- Temperature
- Thermocouple
- Voltage

### Physical/Dimensional
- Gauge Blocks
- Torque
- Micrometers
- Calipers
- Pin Gauges

### Temperature
- Controllers
- Digital Thermometers
- Infrared Thermometers
- Liquid In Glass Thermometers
- Temperature Indicators
- RTD’s
- PRT’s
- Thermocouples
- Dry Blocks
- Liquid Bath

### Pressure
- Absolute Pressure Gauges
- Controllers
- Deadweight Testers
- Indicators
- Manometers
- Micromanometers
- Vacuum Pressure Gauges

### Mass
- Class I-III up to 5kg
- Class IV-VII up to 25kg

### Other
- Humidity
- Air Flow
- Accelerometers
- Dataloggers
- Recorders
- Ovens
- Tachometers
- Light Meters

### Primary Standards Capabilities

#### Temperature Probes
- SPRT’s
- Secondary Standard PRT’s
- Standard Reference PRT’s
- Kaye Intelligent RTD Probes
- RTD/PRT Probes

#### Thermometers
- Infrared
- Glass
- Contact

#### High Voltage
- AC (0 to 80k)
- DC (0 to 120k)

#### Pressure
- Dead Weight Testers
- High Precision Pressure Controllers
- High Precision Pressure Transducers

#### DC/Low Frequency
- High Accuracy Digital Multimeters
- Multifunction Calibrators (e.g. Fluke 5500)
- Precision Resistors
- Precision Capacitors
- Phase
