# MODEL 10AA25

### Clean-out U-Type Manometer

## DESCRIPTION

The Meriam 10AA25 manometer is a versatile, economical instrument for the measurement of pressures, vacuums or differential pressures.

The U-tube type manometer is a primary basic standard of pressure measurement. Pressure measurements are accomplished by balancing a vertical head of indicating fluid with the pressure to be measured. As there are no cams, gears or levers to operate in the manometer, the readings obtained are always accurate.

# CONSTRUCTION

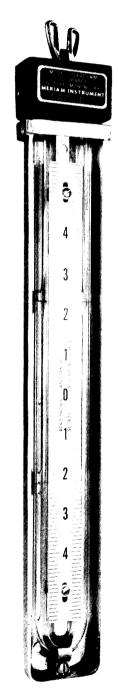

The manometer has a rigid cast aluminum body frame protecting the glass U-tube on three sides. Mounting holes are provided in the frame for mounting to a wall, column or other suitable structure.

The clean-out head at the top of the instrument seals the indicating tube legs and also provides for the external pressure connections to the manometer. The manometer head fastens to the body by a single nut and is quickly and easily removed when necessary. This exclusive Meriam clean-out head feature permits cleaning and filling of the U-tube without disconnecting the piping to the manometer head. A 1/4" female pipe connection is provided out the left and right sides of the clean-out head as standard. Pressure connections at rear or top of head can be furnished when specified. Manometer clean-out heads of cast iron, stainless steel or PVC are available for special corrosive applications.

The manometer scale is located between the tube legs and overlaps the tube legs to a degree that eases reading at the meniscus position.

The scale is readily adjustable for zero indicating fluid level.

The simple engineered method of supporting and sealing the U-tube in this manometer permits easy tube replacement in the field.

# SPECIFICATIONS:

Model: 10AA25 Type: U-tube

Range: 6, 10, 15, 20, 30, 50 inches

Pressure Rating: 250 PSIG

Mounting: wall

Indicating Tube & Packing: Glass, Neoprene

Body Construction: Aluminum

Wetted parts material: Cast Iron,

316 S.S., PVC

Scale Finish: Satin aluminum, black

graduations

Finish: Aluminum body, black crackle

enamel head

#### Accessories:

Return Well Model: 934H50 Bubbler Model: 931R or 931S Line Trap Model: 932R or 932S

Valve & Piping Manifold: 943AC300 - Steel,

943AS300 - SS.

Pressure vacuum Variator Model: 971A3

Table Mounting Stand Model 912A

Slip On Cover Model: 915C
