

testo **317-3**

new!

CO stick

The testo 317-3 CO monitor detects the presence of carbon monoxide (CO) in ambient air and warns the user both visually and audibly about dangerous CO concentrations during furnace and boiler service and maintenance, weatherization audits or home inspections.

Out of this world technology!

testo 317-3 features:

- 3 year warranty on CO cell
- Visual and audible alarm
- No zeroing required, just turn it on to measure
- Adjustable alarm threshold
- Self-test mode verifies CO sensor function anytime, anywhere without the need for test gas

measure:

- CO
