

TL80 Basic and TL81 Deluxe Electronic Test Lead Set

For use in low energy, electronic test applications

TL80 Basic Electronic Test Lead Set

TL81 Deluxe Electronic Test Lead Set

Recommended for use in low energy, electronic test applications that require fine probing that is not easily achievable with larger industrial probes.

The **TL80** kit consists of two each (one black and one red):

- One meter long test lead with a safety shrouded, right angle banana connector on one end and a stainless steel test probe on the other end, rated up to 10A. Silicone-insulated leads have superior flexibility in cold temperatures and resistance to high temperatures
- Insulated alligator clip rated up to 5A
- Insulated probe tip extender rated up to 3A
- Zippered, vinyl soft case
- Compatible with Fluke and other multimeters that accept safety shrouded, standard diameter banana connectors
- CAT III 300V
- UL approval of the kit components is pending
- One year warranty

The **TL81** kit consists of all of the components in the TL80 Basic Electronic Kit, plus two each (one black and one red):

- One meter long modular test lead with a safety shrouded, right angle banana connector on one end and a safety shrouded, straight banana connector on the other end, rated up to 10A
- Modular test probe with banana connector in the handle, rated up to 10A
- Modular hook-style clip test lead with banana connector, rated up to 5A
- Modular pinch-style clip test lead with banana connector, rated up to 5A
- Modular alligator clip with banana connector, rated up to 5A
- Slide-on IC probe tip adapter (rated up to 3A) and test lead couplers
- 2 bare spade lugs with banana connectors, rated up to 10A
- Quadfold nylon pouch
- CAT III 300V
- UL approval of the kit components is pending
- One year warranty
