

## **Expert Instrument Repair - Convenient, Cost Effective and FAST!**

### **Convenient!**

Our broad range of repair services saves you the time and inconvenience of sending your test and measurement equipment to multiple OEMs.

### **Cost Effective!**

After 45 years of performing quality calibrations and repairs, we have our procedures and costs down to a science. This vast experience enables us to transfer savings to you in the form of **Flat Rate Pricing** on the most popular instruments we repair, making it easy for you to budget and acquire repair services.

### **FAST!**

Our expertly trained repair technicians can turn your jobs around faster than the OEM – and often for less.

### **Quality Accredited Calibrations!**

You can count on Transcat to provide the highest quality calibration for your repaired instrument. With our wide scope of ISO/IEC 17025 accreditation, Transcat is trusted by regulated industries and quality conscious companies throughout North America to meet their rigorous requirements.
