

## ORIGINAL TUFF BUCKET

### THE FIRST OF ITS KIND

The Original Tuff Bucket is large enough in diameter to transport a 5 gallon bucket of oil or laser alignment tooling, yet tall enough to enclose gearbox oil filters and turbine turning gears. The Original works well for hauling electrical motors and anything that is heavy or awkward. The Original Tuff Bucket is also manufactured with a **Rescue Equipment** designation to clearly distinguish your rescue gear from your tools and equipment. This bucket was the very first Tuff Bucket product, and has earned its place as a true workhorse.

#### TUFF CONSTRUCTION

- Triple Stitched
