

Power Play: Get More Bandwidth, More Tools, More Value

Purchase a 4 or 5 Series B MSO and unlock extra value – including upgrades, software, and discounts

Power up your performance with the 4 and 5 Series B MSO oscilloscopes – built to help you measure faster, more accurately, and with greater confidence. For a limited time, get even more – a powerful set of free extras designed to maximize the value of your investment.

- ✓ Buy the bandwidth you need – pay for tier below. One-tier upgrade included at no extra cost.
- ✓ Includes a Starter Perpetual license – yours to keep. Unlock serial decode, power analysis, and more.
- ✓ 30% off compatible probes –including isolated probes – plus all on-scope software bundles, advanced analysis options, and more.
- ✓ 20% off eligible calibration and repair services (T3, T5, R3, R5) and extended coverage plans (C3, C5) when purchased with your scope.

Performance you can trust. Extras that take you further. Ready to upgrade? Unlock more bandwidth, more tools, and more value—contact your Tektronix account manager or authorized partner today!

QUALIFYING MODELS

	4 Series B MSO	5 Series B MSO
Bandwidth	200 MHz to 1.5 GHz	350 MHz - 2GHz
Channels	4 or 6	4,6, or 8
Digital Channels	Up to 48 (optional)	Up to 64 (optional)
Sample Rate	6.25 GS/s	6.25 GS/s
Record Length	31.25 M to 62.5 M	62.5 M - 500 M
Spectrum Analyzer	<ul style="list-style-type: none"> • Spectrum View with integrated digital down converter; Each channel with 312.5 MHz span standard • Standard Math FFT 	<ul style="list-style-type: none"> • Spectrum View with integrated digital down converter; Each channel with 312.5 MHz span standard • Standard Math FFT
Free Perpetual Starter Software License Per Scope	<ul style="list-style-type: none"> • Serial trigger, decode, search and event table analysis on I2C, SPI, RS-232/422/485/UART buses • Integrated Arbitrary/Function Generator with 13 predefined waveform types as well as arbitrary waveforms • Power Measurement and Analysis 	<ul style="list-style-type: none"> • Serial trigger, decode, search and event table analysis on I2C, SPI, RS-232/422/485/UART buses • Integrated Arbitrary/Function Generator with 13 predefined waveform types as well as arbitrary waveforms • Power Measurement and Analysis

TERMS AND CONDITIONS:

- Program expires December 31, 2025.
- Purchases must be made through authorized Tektronix distributors or sales representatives.
- Tektronix's Worldwide Terms and Conditions of Sale and Services apply to all purchases under this program: [tek.com/en/terms_and_conditions](https://www.tek.com/en/terms_and_conditions)
- All discounts and upgrades must be purchased at the same time as the qualifying oscilloscope.
- A full list of eligible products can be found at: <https://www.tek.com/en/lp/promo/am-m-tek-unlock-more-performance-promo-lp>
- One bandwidth upgrade at no cost will be applied to each qualifying MSO4B or MSO5B oscilloscope.
- The Perpetual Start License includes software indefinitely plus maintenance updates for 12 months. After the first year, a maintenance license is required to continue receiving updates. Learn more at [tek.com/tektronix-maintenance-for-software](https://www.tek.com/tektronix-maintenance-for-software).
- The number of discounted probes may not exceed the total number of physical channels on the purchased oscilloscope(s).
- This offer may not be combined with other promotions, special pricing agreements, or discounts unless explicitly authorized in writing.
- All offers are subject to availability and may be modified or terminated at Tektronix's discretion without prior notice..

Power Play: Amplify Performance. Maximize Investment. MSO4B and MSO5B Promotion

Program Duration

- **Start Date:** July 14, 2025
- **End Date:** December 31, 2025

Program Summary

Tektronix is excited to announce a new global promotion for the MSO4B and MSO5B Series oscilloscopes. For a limited time, customers who purchase any eligible unit can receive a higher bandwidth configuration for the price of the next lower tier, a **perpetual** Starter license, 30% off probes and software, and 20% off service options. This promotion is designed to help customers maximize the value of their investment by unlocking enhanced performance and savings across the full Tektronix solution—while giving you a clear upsell opportunity through high-impact bundling.

Terms and Conditions

This promotion (“Power Play”) is offered by Tektronix and is valid for purchases made during the promotional period of July 14, 2025, through December 31, 2025. By participating in this promotion, you agree to the following terms and conditions:

1. General

- All purchases made under this promotion are considered promotional sales and are subject to Tektronix’s standard Terms and Conditions of Sales.
- All offers are subject to availability and may be modified or terminated at Tektronix’s discretion without prior notice or **obligation to provide compensation**.
- Purchases must be made through authorized Tektronix distributors or sales representatives.

2. Promotion Details

- **Promotional Modifier:** *GL-MSR 047-2024/079-2025/007-2036 Power Play.*
- **Bandwidth Configuration:** Customers must order the higher-bandwidth MSO4B or MSO5B model they wish to receive. When the promo modifier is applied, pricing is adjusted to the next lower tier. Valid for a one-tier upgrade only and must be applied at time of order. No substitutions or cash value.
 - Example: Pay for an MSO58B 5-BW-500, receive an MSO58B 5-BW-1000.
- **Perpetual Starter License:** Each qualifying MSO4B or MSO5B oscilloscope includes one Starter (PER) license.
- **Discounts on Probes and Software:** Customers may receive an additional 30% off compatible probes and software purchased in the same order as the qualifying oscilloscope. **Probes and software must be included on the same PO to qualify.**
- **Discounts on Services:** Customers may receive an additional 20% off all eligible service options (T3, T5, R3, R5, C3, C5) if purchased at the time of the qualifying oscilloscope order.

3. Purchase Rules and Limitations

- **Probe Quantities Must Align with Scope Channels:** The number of discounted probes may not exceed the total number of physical channels on the purchased oscilloscope(s).
- **Software Discounts:** All eligible on-scope and bench software purchased on the same PO as a qualifying MSO4B or MSO5B are eligible for a 30% discount. No limit on the number of software licenses per oscilloscope.
- **Service Discount Application:** Services must be purchased at the same time as the qualifying hardware to receive the discount. Retroactive service discounts will not be honored.
- **Per-Unit Application:** Each qualifying MSO4B or MSO5B in the order is eligible for the promotion. Multiple scopes may be purchased in a single order. **Each qualifying oscilloscope in the order is eligible for one set of promotional benefits.**

4. Partner Fulfillment (Stock or Factory)

- Partners may fulfill MSO4B/MSO5B customer orders using either:
 - Units pulled from their own inventory (stock), or
 - Direct orders (back-to-back) placed with Tektronix for factory shipment.
- If fulfilling from **partner stock**, all the following conditions must be met:
 - A zero-value upgrade order is submitted to Tektronix when the unit shipped to the customer requires a bandwidth upgrade under the promo.
 - A matching replenishment order is submitted for the same model and bandwidth as the unit pulled from stock.
 - Both the zero-value upgrade order and the replenishment order must be submitted on a single purchase order (PO).
 - Discounted probes, software, and services must be included on the same PO.
 - Proof of end-customer purchase, including serial numbers and end-user details, must be provided (needed for license activation).
 - The request must be submitted to the local DAM and approved by the Distribution Director.
 - Tektronix will not honor any promotional benefits—including credits, discounts, or licenses—for units shipped from stock outside of this process.
 - MSO5B 1 GHz to 2 GHz upgrades are not allowed on existing stock. These must be fulfilled as a direct order from Tektronix.
 - **No credits will be issued for units sold from stock.**

5. Non-Combinable Offers

This offer may not be combined with other promotions, special pricing agreements, or discounts unless explicitly authorized by the Regional Sales Manager.

6. Eligible Products

The following oscilloscopes, probes, on-scope software, and service packages are eligible under this promotion.

- All MSO4B and MSO5B Series models excluding low profiles.

MSO4B	
MSO44B 4-BW-200	MSO46B 4-BW-200
MSO44B 4-BW-350	MSO46B 4-BW-350
MSO44B 4-BW-500	MSO46B 4-BW-500
MSO44B 4-BW-1000	MSO46B 4-BW-1000
MSO44B 4-BW-1500	MSO46B 4-BW-1500

MSO5B		
MSO54B 5-BW-350	MSO56B 5-BW-350	MSO58B 5-BW-350
MSO54B 5-BW-500	MSO56B 5-BW-500	MSO58B 5-BW-500
MSO54B 5-BW-1000	MSO56B 5-BW-1000	MSO58B 5-BW-1000
MSO54B 5-BW-2000	MSO56B 5-BW-2000	MSO58B 5-BW-2000

- Probe options:

Probes			
TIVP1L	TICP100	TMDP0200	TLP058
TIVP1	TDP0500	TAP1500	TCP0020
TIVP02L	TDP1000	TAP1500L	TCP0030A
TIVP02	TDP1500	TAP2500	TCP0150
TIVP05L	TDP3500	TAP3500	TPP0502
TIVP05	TDP4000	TAP4000	TPP0500B
TICP025	THDP0100	TPR1000	TPP0850
TICP050	THDP0200	TPR4000	TPP1000

- On-Scope Software Bundles (tek.com/en/documents/brochure/software-bundles-for-the-4-5-and-6-series-mso-oscilloscopes).
- Bench Software: TekScopePC, TekCloud, TekDrive, and SignalVu.
- Service options: T3, T5, R3, R5, C3, C5.

7. Exclusions

- Products sold under separate promotions, custom pricing agreements, or special discounts outside standard pricing tiers.
- Orders placed before the promotion start date or after the promotion end date.
- Refurbished (Encore) and demonstration units are not eligible for this program.

8. Order Requirements

- All items must be included in a single purchase order.
- Purchase orders must include the promo modifier, end-user details, and all associated items (scope, probes, software, and service) to qualify.
- Purchase orders must be received within the promotional period to qualify.

Contacts

Aurel Pop, Senior Product Manager, Mainstream Platforms (aurel.pop@tektronix.com).

For questions, eligibility confirmation, or to place an order please contact your local Tektronix sales representative or authorized distributor.

FREQUENTLY ASKED QUESTIONS (FAQ)

Q1: What is the promo modifier I should use?

A: Use: “GL-MSR 047-2024/079-2025/007-2036 Power Play”.

This must be included on the purchase order at time of submission for the pricing adjustment to apply.

Q2: Which oscilloscopes, probes, software, and service options are eligible for discount?

A: See the “Eligible Products” section in the Terms and Conditions. A full list of supported oscilloscopes, probes, software bundles, and service plans is provided there.

Note: All options must be included on the same PO as the qualifying oscilloscope.

Q3: How do I know what bandwidth to order?

A: Customers must order the higher-bandwidth model they want to receive. When the promo modifier is applied, the invoiced price is reduced to the next lower bandwidth tier. Only a one-tier bandwidth upgrade is allowed. The promo must be applied at the time of order.

Q4: Can I apply the promotion to multiple scopes in one order?

A: Yes. Each qualifying MSO4B or MSO5B in the PO is eligible for promotional benefits.

Q5: What are the accessory discounts?

- A:**
- **Probes:** 30% off, up to the number of channels on the scope.
 - **Software:** 30% off all eligible on-scope and bench software purchased on the same PO.
 - **Services:** 20% off eligible plans; multiple services per unit are allowed.

Q6: Are stocking orders allowed under this promotion?

A: No. This is a sell-through-only promo.

Partners may fulfill from existing stock only if all requirements are met (see Terms and Conditions: “4. Partner Fulfillment (Stock or Factory)” section).

Q7: Can partners fulfill from stock?

A: Yes - but only if all of the following are met:

- A zero-value upgrade order is submitted if bandwidth is upgraded.
- A matching replenishment order for the invoiced config is submitted (same model and bandwidth pulled from shelf).
- Both orders are on the same PO.
- All discounted items (probes, software, services) are included.
- Proof of customer shipment and end-user details are provided.
- Approval is granted by the local DAM and Distribution Director.

Q8: What if the product isn't in partner inventory?

A: Place a direct factory order for the upgraded model. Apply the promo modifier at time of order — no zero-value or replenishment orders required.

Q9: Can this promotion be combined with other offers?

A: No. Power Play cannot be combined with other promotions, special pricing agreements, or discounts unless explicitly authorized by your Regional Sales Manager.
