

PTCt-125

Professional Temperature Calibrator

-90 to 125 °C/-130 to 257 °F

The PTCt-125 is shown with
option RG

Professional temperature calibration from -90 to 125 °C
Reliable performance for laboratory and field calibration of temperature sensors.

Product overview

Precise, efficient temperature calibration

The PTCt-125 Series builds on the proven PTC platform and introduces an updated user interface, enhanced calibration functionality, and extended connectivity.

The series combines stable dry-block temperature generation with modern workflow support, enabling efficient and repeatable calibration of temperature sensors across a wide range of applications.

PTCt platform – value highlights

The PTCt Series introduces a set of improvements focused on practical calibration work:

- Touchscreen user interface with configurable views
- Built-in automation features such as Auto Step and switch testing
- Dual sensor-under-test capability for parallel calibration (model B)
- Graphical calibration indication (Option RG)
- Integrated connectivity with support for documentation and data transfer (Option RG)

*The PTCt-125 is shown
with option RG*

Typical applications

The PTCt-125 is designed for applications requiring reliable and accurate calibration in the lower temperature range, including sub-zero conditions and controlled environments.

Typical applications include:

- Calibration of sensors in pharmaceutical cold storage, freezers, and validation processes
- Verification of temperature stability in environmental chambers and laboratory equipment
- Calibration of sensors used in food storage, cold chain, and refrigeration systems
- Testing of transmitters and temperature switches operating at low and sub-zero temperatures

Options & Accessories

Standard Delivery

Models A, B, and C Include:

- PTcT dry-block calibrator (user specified).
- Mains power cable (user specified).
- Traceable certificate - temperature performance.
- Tool for insertion tubes.
- USB cable.
- Set of rubber cones for insulation plugs.
- Protective Roller Case
- USB key containing JofraCal software package and reference manual.

Model B Instruments Also Include:

- Test cables (2 x red, 2 x black).
- Traceable certificate - input performance for reference sensor.
- Traceable certificate - input performance for sensor-under-test inputs.

Model C Instruments Also Include:

- Traceable certificate - input performance for reference sensor.
