Professional Tool Backpack.  
(a \$200 value)

The perfect duo for the Power Quality Specialist who is looking to save time and energy. The power quality indicator on the new **Fluke 378FC Clamp Meter** appears automatically when a power related issue is identified. When paired with the **Fluke 173x-series Power Quality Loggers**, the ideal tool for conducting energy studies and power quality surveys, you're equipped with the right tools to reduce uncertainty and make better power quality and energy consumptions decisions.

**Promotion period: March 15-June 30, 2022.** Terms and conditions apply.
