### Super PeliLite®

**SUBMERSIBLE**

The ultimate light source you can take anywhere. The abuse proof all-purpose, outdoor sportlight that's 400% brighter and has a 400% longer lamp life. The Super PeliLite Submersible is the perfect smart-looking take along companion for all outdoor trips, leisure, or high adventure activities. Super PeliLite's weather proof, unbreakable super bright performance makes it an instant lifetime winner for all outdoor activities. Super PeliLite's Laser Spot Xenon® lamp module has an incredible

beam of light that will cut through water, smoke, fog and rain. The Super PeliLite is a perfect light source for industrial applications. Whether you're backpacking, water rafting or just kicking back at your favorite campsite, you can count on Super PeliLite's proven tough dependability - We guarantee it! Super PeliLite has an unbreakable ABS body with a high impact polycarbonate lens. Requires 2 C-cell alkaline batteries (not included). **Colors:** Black, Yellow, Orange. **Length:** 6". **Diameter:** 1 5/8". **Catalog No.:** 1800C.

Approved Non-Incendive  
UL Approved

## Super SabreLite®

### SUBMERSIBLE

Built to take a beating. The Super SaberLite, with its military tough, multi-purpose performance and quality, was selected and used by Fire Departments, Search and Rescue Teams, Paramedics, and literally thousands of commercial and industrial tradesmen. Super SabreLite's high-tech Xenon® Laser Spot provides four times the usable candle power of ordinary C and D size Flashlights. Super SabreLite is the uncontested, no nonsense choice of the working professional. Super SabreLite is tailor made for the nastiest, potentially dangerous situation demanding the highest quality construction. You can depend on Super SabreLite's light transmission and guaranteed lifetime dependability. Unbreakable ABS body with a high impact polycarbonate lens. Exclusive state-of-the-art Laser Spot Xenon® lamp module produces a tightly focused collimated white light beam with 400% increased net candle power. **Includes:** Belt spring clip, stainless steel

split ring and black lanyard. Meets military specifications. Requires 3 C-cell alkaline batteries (not included). **Colors:** Black, Yellow, Orange. **Length:** 7 1/2" **Diameter:** 1 7/8". **Catalog No.:** 2000C.

Approved Non-Incendive  
UL Approved

## StealthLite

### SUBMERSIBLE

Watertight to 500 feet. Unbreakable ABS body with a high impact polycarbonate lens. Features Pelican's state-of-the-art Laser Spot Xenon® lamp module with an unsurpassed white collimated light beam. **Includes:** One-handed safety switch operation, double shock mounted battery compartment and black lanyard. Operates 5-6 hours on 4 AA-cell alkaline batteries (included). **Colors:** Black, Yellow, Orange, Lime Green, Hot Pink. **Length:** 6 1/2" **Diameter:** 1 5/8". StealthLite Clampack Packaging (Batteries included)  
**Catalog No.:** 2400C

Approved Non-Incendive

## Rechargeable StealthLite

### SUBMERSIBLE

Pelican's New Rechargeable StealthLite offers all the features of the proven StealthLite. It's submersible, corrosion proof and the powerful Xenon® Laser Spot beam penetrates smoke, water and fog. Used by the US Armed Services, Police and Fire Departments plus Search and Rescue Teams. The Hi-Capacity NICAD industrial battery pack yields up to 1000 charges. The burn time per

charge is approximately 1 hour 10 minutes, longer if used intermittently. The rechargeable StealthLite is 50% brighter than a standard StealthLite. Three long-life chargers are available--12V plug-in for vehicle or boat use (Cat. No. 2456), 110V charger (Cat. No. 2457) and a 220V "Euro" charger (Cat. No. 2458).

Approved Non-Incendive

## ProLite 4C

### **SUBMERSIBLE**

Eliminate the worry and inconvenience that a burned-out light or broken switch can cause. Pelican's exclusive fail-safe lighting system includes the dual filament Xenon® safety lamp and a back-up switch. The switch can also be used as an intermittent switch which automatically shuts off upon finger release. Instant back-up light--the ergonomically designed switch allows you to instantly change from one filament to a second back-up filament. Quick focus adjustment for both filaments. Each filament has 30 hours of life (standard "PR" bulbs average 5 hours) for a total of 60 hours burn time. Non-metallic/Corrosion proof--The ProLite is the ideal work light for anyone preferring a non-metallic rugged light. Made of unbreakable chemically resistant Xenoy® and Lexan® resins. Requires 4 C-cell alkaline batteries (not included). **Colors:** Black, Yellow. **Length:** 11" **Diameter:** 2 1/2" **Weight:** 11oz. **Catalog No.:** 3500B

Approved Non-Incendive

# ProLite Rechargeable

## SUBMERSIBLE

Includes ProLite, slide in handy desk/dash mount base with 110V charger, high capacity industrial Nicad battery pack, high performance lamp. Burn time 1 hr. 40 min. per charge. 220V and 12V plug-in chargers available. **Colors:** Black, Yellow. **Length:** 11" **Diameter:** 2 1/2" **Weight:** 11oz.  
**Catalog No.:** 3550B
